Dear Dad:

Thanks for your long
letter and your thoughtful
stand on the exercise proposition.

I can easily, and shall do as
you say, play squash at least
twice a week. The court is
10¢ apiece for two every half
hour which if I did for
four times a week would
only mount up to \$1.60 a
month. There are plenty of
fellows that play here in
the house, it has all its own
courts, and all I have to do its
run up from the basement
and take my showers here in

the room.

As to that charity thing,
I think snobby Harvard has
taken a vry fair stand. 1st she
does not want to set a
precedent of playing a game
for charity, everytime things
seem to go hard. 2nd she
does not want to commercialize
football any more than necessary.

Certainly the players get enough footfall during the season, and an extra game is scarcely according to their wish though of course they couldn't say the don't want to prolong the season and have to make money for somebody else. That probably seems selfish. But there is something wrong beneath some

where and any amount of football games and charity drives is not going to set things on the right track. Just to put a better face on affairs, passing the hat at the last three games, made \$6,000 at the Dartmouth game.

I think you were trying to impress me with your knowledge of music, putting [?] down all the classics that came along on the radio as you wrote.

Is Collis surprised at his own temerity?]

I am sorry to hear about your bum back again, it seems there should be something you could do.

[Exercise! Gramps did exercises each morning?]

I have seen the Sperry's twice

now. He just lost his job and got another, I think in some sort of welfare position.

With Leel coming back to Boston for Xmas, the whole of our attack is knocked cock-eyed.

[Attempt to get Hutchins to Minneapolis-see previous letter.]

Still trying to plug for the divisional F.A. exam and do to [sic] many other things at the same time.

S far I have got 2 Bs for November grades. Lawry got Dean's list I think!

Yours with love
